29			29			29		
30			30			30		
31			31			31		

**Check the walk-in temperature every day.** (Do it well before or well after a meal, so the doors have been closed for at least one hour.) If temp is over 45 degrees, re-check in one hour. If temp is still over 45 degrees, report it immediately to the chef or foodservice manager.

*Never assume someone else has reported a problem!*
